

MIFI 2200 INTELLIGENT MOBILE HOTSPOT

# TAKE YOUR HOTSPOT WITH YOU.

Take your Wi-Fi on the road with the MiFi 2200 Intelligent Mobile Hotspot. You're traveling with clients to a job site when together you come up with an innovative way to market their products. Your clients want to start the research right away, but you're miles away from a wired or Wi-Fi Internet connection. Keep the momentum going by providing an instant hotspot right where you are within the Broadband Services coverage area. With the Verizon Wireless MiFi™ 2200 Intelligent Mobile Hotspot and Verizon Wireless Mobile Broadband, your clients will enjoy high-speed Internet access on their Wi-Fi-enabled devices.

## The magic behind MiFi.

MiFi connects to Verizon Wireless Mobile Broadband service to give broadband Internet access to up to five Wi-Fi-enabled devices. You and your colleagues will be able to check email, access corporate intranets, download files, send pictures with a Wi-Fi-enabled camera, and access the Internet on any Wi-Fi-enabled device—even far from traditional hotspots.

The MiFi device is about the size of eight stacked credit cards and weighs just over 2 ounces, so it's ultra-portable. With MiFi, the office is where you want it to be within the coverage area, on the largest 3G wireless network in America.

## Three reasons you'll love it.

You can forget about complex sign-ons or connection difficulties.

- + Simply power it on with the press of one button and connect your devices.
- + Create your own personal hotspot anywhere on the largest high-speed wireless network in America.

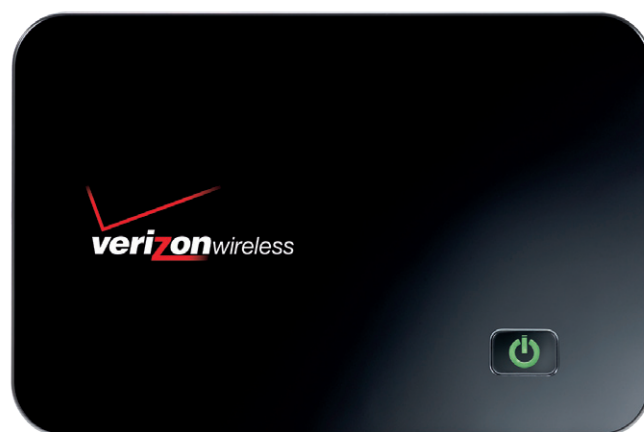

You can connect more devices.

- + Mobile Broadband isn't just for notebooks anymore. Now you can use it on your netbook, camera, MP3 player, PDA, or any other Wi-Fi-enabled device.
- + Provide a wireless gateway for up to five devices at one time.

You can get more done with multiple connection options.

In Wi-Fi mode:

- + Connect up to five Wi-Fi-enabled devices at once.
- + Use the lithium-ion battery for up to four hours on the road or 40 hours of standby time.<sup>1</sup>
- + Plug the device directly into a wall outlet for extended usage time.

Verizon Wireless MiFi 2200  
Intelligent Mobile Hotspot

<sup>1</sup> Typical battery usage time is four hours active and 40 hours standby in Wi-Fi mode for one client connection.

## Tiny device, huge performance.

It might look basic, but there's a lot of power packed into this little device:

- + **High-speed connection.** Enjoy typical download speeds of 600 Kbps to 1.4 Mbps and typical upload speeds of 500 to 800 Kbps.<sup>2</sup>
- + **Sleek design.** Small enough to carry in your shirt pocket, it features an internal antenna, so there are no outer parts to break.
- + **Plenty of standard features.** These include simple, software-free activation & configuration, VPN support and a removable lithium-ion battery.
- + **Robust security.** Keep would-be trespassers from using your connection with password protection, CDMA authentication and identification, dynamic Mobile IP (MIP) key update, common Wi-Fi security protocol support including WEP/WPA/WPA2, Mac Address filtering, Serial Peripheral Interface (SPI) firewall, VPN pass-through, and more.

### 3G Mobile Hotspot Plans

Monthly Access Fee	\$20	\$35 <sup>3</sup>	\$50	\$80
Monthly Data Allowance	1 GB	3 GB	5 GB	10 GB
Per-GB Rate After Allowance	\$20	\$10	\$10	\$10

\$20 1 GB Dedicated 3G Mobile Hotspot Plan is a promotional offer and only available with purchase of select tablet in conjunction with select Dedicated 3G Mobile Hotspot device; if tablet is returned, the service for your Dedicated 3G Mobile Hotspot device will be changed to \$35/3 GB plan. ### Prepaid Mobile Broadband Plans<sup>4</sup>

Pay for what you need, when you need it.	Day	Week	Month	
Access Fee	\$15	\$30	\$50	\$80
Data Allowance	100 MB	300 MB	1 GB	5 GB

## Know your limits.

Sign up for the 3G Mobile Hotspot Plan and you'll enjoy up to 10GB of on-the-move Wi-Fi power. Check your usage at any time quickly and easily:

- + When your computer is connected to the internet via Wi-Fi or another connection that does not use the Verizon Wireless data network, log on to My Verizon or My Business Account.

For more information about the MiFi 2200 Intelligent Mobile Hotspot, speak to your business specialist or visit [verizonwireless.com/mobilehotspot](http://verizonwireless.com/mobilehotspot).

<sup>2</sup> When traveling in the Extended 3G Coverage Area, you can expect download speeds of 400 to 700 Kbps and upload speeds of 60 to 80 Kbps. Mobile Broadband speed claims based on our network tests with 5 MB FTP data files, without compression. Outside the 3G and Extended 3G Coverage Areas, the National Access network allows connections at typical speeds of 60 to 80 Kbps, based on our network tests with 101 KB FTP data files. Actual speeds and coverage may vary.

<sup>3</sup> Promotional price available for a limited time/while supplies last.

<sup>4</sup> Prepaid Mobile Broadband Plans do not include Verizon Wi-Fi Access, Text Messaging or roaming.

Our Surcharges (including Federal Universal Service of 15.5% of interstate and international telecom charges (varies quarterly), 2¢ Regulatory and 6¢ Administrative/line/mo., and others by area) are not taxes (details: 1.888.684.1888); government taxes and our surcharges could add 6% to 39% to your bill. Activation fee/line: \$35.

IMPORTANT CONSUMER INFORMATION: Corporate Subscribers are subject to Major/National Account Agreement Data Plan and credit approval. Up to \$175 early termination fee.
