October 2021 (Prerecorded Video)
October 2022 (Updated Slide Content)

Bureau of Research, Evaluation, and Performance Analytics

#### **Program Summary Tables**

#### **Youth Served Summary**

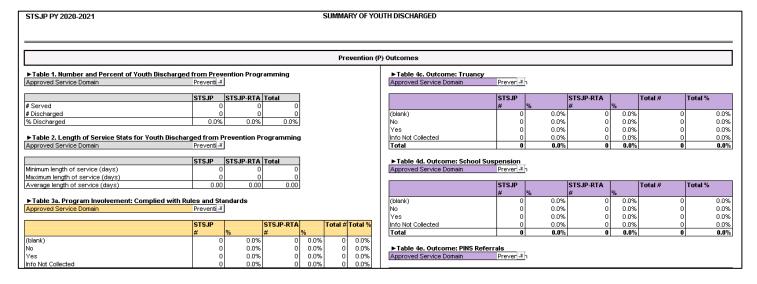

- Reports on demographics
- Tables use youth start dates as counts

(RA) Outcomes

#### **Outcome Summaries**

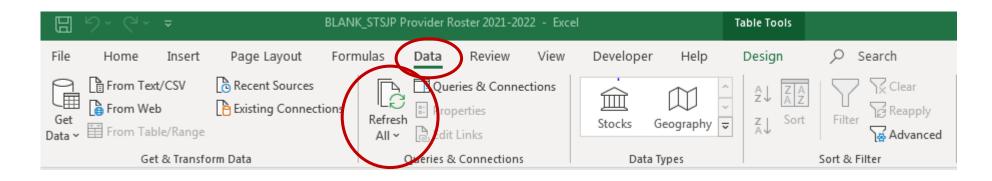

- Reports by domain
- Tables use youth end dates as counts

#### **Feed Data into the Summary Tables**

 After adding new data on the Provider Roster tab, click Refresh All under Excel's Data heading to update the summary tables.

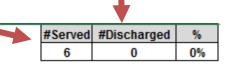

- When recording data on the Provider Roster tab, be sure to use the drop-down menus when they're available or else the summary table formatting may be disrupted when you refresh your data due to incorrect entries/spelling.
- To ensure you're looking at the most up-to-date information in your summaries, it's a good idea to *Refresh All* before you review them each time.

### **Summary Features**

The note about funding stream missing appears when the #served in the service counter is higher than the Total in Table 1; it's an indicator that you need to *refresh* your data.

Service Counter uses formulas to count the number of start and end date entries on the Roster tab

Youths' race and ethnicity are now tabulated separately. Race will show as missing under the following scenarios:

- 1) All racial categories are blank
- 2) All racial categories show No

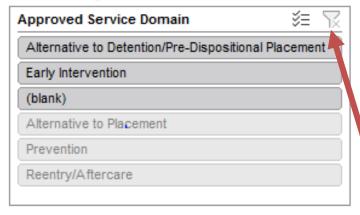

Note: If a youth identifies as Hispanic only, enter "Declined" under Race.

#### Filtering by Domain in the Summary Tables

Most of the summary tables have a service domain filter above them.

- By default, youth served summaries show all service domains.
- Outcome summaries have the service domain preset to match the domain.

#### ► Quick Filtering

- Domains recorded on the Roster tab will appear darkened on the slicer.
- Click which one you want to filter on/hold down the Shift key if you want to select multiple domains.
- Clear the filter by clicking the funnel in the top right corner of the slicer.

An error message will appear if you try to choose unavailable options.

Click OK and try a different option.

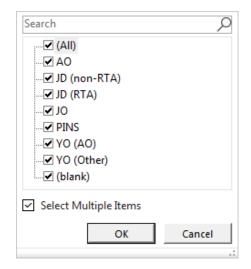

#### Filtering by Youth's Case Type in the Summary Tables

Some tables have a second filter for youth's case type. Adjust these manually using the filter above the table.

► Table 2. Length of Service Stats for Youth Discharged from ATD/ATPDP Programming

	<u> </u>
Approved Service Domain	Alternat - to Detention/Pre-Dispositional Placement
Youth's Case Type	(All) -

	STSJP	STSJP-RTA	Total
Minimum length of service (days)	C	0	0
Maximum length of service (days)	0	0	0
Average length of service (days)	0.00	0.00	0.00

Check or uncheck types from the filter menu.

To return to the default of all types displaying, make sure the box is checked for selecting multiple types and all types are checked.
